

### PRODUCT DESCRIPTION

IMG® Ignition System & Wire Dryer Instantly displaces moisture and dries ignition system components, including: distributors, wiring harnesses, ignition coils, starters, batteries, spark plugs, leads, cables, and wires.

### FEATURES

- Professional strength formula
- Effectively cleans electrical components
- Leaves a protective coating to shield them from weather, rust, and corrosion

### DIRECTIONS FOR USE

Use IMG® Ignition System & Wire Dryer ONLY in a well-ventilated area.

1. Shake the can well before using.
2. Remove any loose material or dirt from the electrical components to be treated.
3. Holding the can upright, about 6-12 inches away from the components to be treated, spray IMG® Ignition System & Wire Dryer directly onto electrical system components, including the distributor, wiring, coil, cables, battery, and spark plugs.
4. In the event of high humidity or damp conditions, spray the inside of the distributor cap. Make certain that the distributor cap is dry before re-installing it.
5. Allow all treated components to dry completely before starting the engine.
6. Remove any overspray using a clean cloth or towel.

### COLOR
